---

## SUMMARY

Motivated BCA student with expertise in Python, Java, C++, data structures, SQL, and web development skills in HTML and CSS. Adept at solving complex technical problems and developing efficient, scalable solutions. Seeking an entry-level role to leverage my programming skills and grow within the tech industry.

---

## INTERNSHIP EXPERIENCE

### L&T CONSTRUCTION

Aug 2024 - Nov 2024

- Collaborating with cross-functional teams to gather and analyze data for construction project management and reporting.
  - Designing and developing interactive Power BI dashboards and reports to visualize key project metrics, improving decision-making processes.
  - Automating data integration and report generation to streamline project tracking and performance analysis.
  - Gaining hands-on experience in data modeling, DAX functions, and transforming complex datasets into actionable insights.
- 

## EDUCATION

### Bachelor's of Computer Applications

June 2023 - May 2026

Shri Shankarlal Sundarbai Shasun Jain College for Women

- Core Subjects: Programming (Python, Java, C++), Data Structures, Database Management (SQL), Web Development (HTML, CSS)
  - Gained comprehensive knowledge in software development, algorithms, and problem-solving techniques.
  - Worked on hands-on projects to develop real-world applications and systems.
  - Relevant Coursework: Data Structures & Algorithms, Database Management, Web Technologies, Object-Oriented Programming.
- 

## ADDITIONAL INFORMATION

### • Technical Skills:

1. Programming Languages: Python, Java, C++, SQL
2. Web Technologies: HTML, CSS
3. Data Analytics & Visualization: Power BI
4. Software Development: Data Structures, Algorithms, Database Management
5. Tools: Power BI, Microsoft Office, Git

### • Certifications:

1. Visualization and Power BI
2. Python for Data Structures
3. SQL (HackerRank)

### • Awards/Activities:

1. Graduated from the Abacus Program
2. Received an award for outstanding performance in the Fashion Walk, showcasing creativity
